Git, GitHub, REST API

LANGUAGES

Russian: Native

English: Upper Intermediate(B2)

ABOUT ME

Frontend Developer with 3 Years of Experience
Specializing in building web applications with React and Next.js. Strengths include developing adaptive interfaces and server-side rendering.

WORK EXPERIENCE

Frontend Developer | Markup Specialist

Self-employed   2022-2025

- Developed interactive web applications using React, optimized component rendering, and managed state with Redux.
- Built UI with SCSS and Tailwind CSS, ensuring proper display across all devices and browsers while implementing semantic HTML markup.
- Configured project builds with Gulp/Webpack, optimized images, minified CSS and JS, and created pipelines to speed up development.

Frontend Developer with Backend Integration Experience

Chef Kitchen   2023-2024

https://chef-kitchen.com/

- Developed functional and adaptive client-side components using PHP, Laravel, Livewire, and JavaScript.
- Implemented complex user interfaces with a focus on cross-browser compatibility and responsiveness.
- Added support for three languages, improving user experience and expanding the website's audience.

Frontend Developer

Prosto Coworking   2022-2023

https://www.prostospb.team/

- Developed a personal account dashboard on React, ensuring a user-friendly interface.
- Implemented authentication and profile management, enabling dynamic data updates via API.
- Optimized performance by minimizing unnecessary re-renders and working with data caching.

PERSONAL PROJECTS

Web Application for Creating and Taking Tests

JavaScript, Next.js, MongoDB, Tailwind CSS   2023

glotz.vercel.app

- Developed functionality for creating user-generated tests and taking tests created by others.
- Implemented registration and authentication, allowing users to manage their tests and save results.
- Added a rating system, enabling users to provide feedback on tests.
